- Topics on the target list
 - Security on cell phones
 - Protection software, secure passwords
 - Security over the air, security on the internet,
 - Importance of firewalls
- Gadgets (Android, iPhone, 3G, USM)

CVARC Security Show

Security on cell phones

- Code locking, care don't forget, unlock 2
- Some with little or NO encryption
- Tapping wares, few secret numbers
- GPS Tracking
 - Turn it off when un-needed (better battery life)
- Try the video [Cell Call](#)
- Some great new toys – Use caution

CVARC Security Show

Protection Software

- Well known brands, check if you care
 - Anti-spyware
 - Anti-virus
 - Run automatically, regularly or often
-
- Click (strange source) --- Oh Stuff!!

CVARC Security Show

Secure Passwords

- At least two each A-Z, a-z, 0-9, !@#&()?...
 - Not all symbols work .. Crack works
- Good passwords have no words,
- Change often

CVARC Security Show

Security Over The Air

- Please, come by my house ...
- I'm away take what you need

CVARC Security Show

Security On The Internet

- They love to see your face
- Try this [facebook safety.pdf](#)
- On SNS give up your email list an be remembered forever ..
 - Yf friend in London

CVARC Security Show

Importance of Firewalls

- Internal (host) or Independent
- Embedded devices are common
 - Wireless Access Points, AP's,
 - Router, DSL Appliance
- Only open ports needed
- W/less devices (AP's)
 - Secure with best possible, WPA2, WPA, WEP
 - MAC address restrict (00:12:34:56:ab:ef)
- Don't donate free access, Black Helo ☺
